

## Conference E: 2nd International Conference "Up-to-date Technologies in Hardware Production - 2007"

October 18-19, 2007

### Organizer:

METIZ magazine with support of the International Wire & Machinery Association IWMA

<b>Thursday, October, 18</b>	
14:00 - 15:30	<b>Session 1. LOW-CARBON WIRE. LOW-CARBON WIRE PRODUCTS.</b>
	<b>ArcelorMittal Kribvoy Rog: consumption at internal markets for 3 quarter of 2007</b> Irina S. Vlasenko, Head Bureau, ArcelorMittal Krivoy Rog OJSC
	<b>Technologies and equipment for mechanical processing of wire, and roled wire.</b> Alexander Ye. Provolotskiy, Doctor, National Metallurgical Academy of Ukraine.
	<b>Fixture wire of low-carbon steel quality management in a process of production.</b> Zaytseva Mariya, Deputy Head Research Center, Head Low-Carbon Wire Bureau, MMK Metiz, OJSC.
15:30 - 15:50	Coffee-break
15:50 - 17:00	<b>Session 2. LOW-CARBON WIRE. LOW-CARBON WIRE PRODUCTS.</b>
	<b>Cold-shaped fixture rolled metal B500c: production prospects.</b> Alexander V. Ivchenko, Director, Armst-200, LLC
	<b>Experience in desinind new industrial equipment for steel wire production.</b> Andrey Yu. Petrov, Privat entrepreneur
<b>Friday, October, 19.</b>	
10:30 - 12:30	<b>Session 3. HARDWARE.</b>
	<b>Organizing features of metalware production in Taiwan, problems, and prospects in CIS.</b> Slisaruk Yuriy, Director, Privat entrepreneur
	<b>Programm of government credit for buying anticorrosive thermal-diffusion zinc deposition production line.</b> Invest Ukraine
	<b>European hardware market: analysis, main producers, development prospects.</b> Zaytsev Anton, Sacma Russia Representative Office Director.
12:30 - 13:00	Coffee-Break
13:00 - 15:00	<b>Session 4. HIGH-CARBON WIRE. HIGH-CARBON WIRE PRODUCTS. ROPES.</b>
	<b>Technologies of linear torsion-free ropes production.</b> Galina A. Gorbaskenko, Deputy Head Technical Department, Silur LLC
	<b>Ukrainian market of ropes, and high-carbor wire after antidumping measures cancelation: developmet prospects.</b> Igor Zubok, Director, Yuzhmetiz LLC
